

# Weatherization Assistance Program

01/01/2023-12/31/2023

The U.S. Department of Energy's Low-Income Weatherization Assistance Program works to increase the energy efficiency of homes owned or occupied by low-income persons, reducing their total residential energy expenditures, and improving their health and safety. North Dakota Community Action Agencies have been weatherizing homes since 1976.

## Completed Projects By Region

\*Projects may include general weatherization, furnace repair, and other related jobs.

# Weatherization Assistance Program

01/01/2023 - 12/31/2023

The purpose of the Weatherization Assistance Program (WAP) is to install energy efficiency measures in the homes of income-eligible persons. Funds are targeted to the most cost-effective conservation measures, determined from an on-site energy audit. Energy auditors may choose from the below nine general categories based upon their ability to save energy.

- General Heat Waste
- Attic Insulation
- Wall Insulation
- Perimeter Insulation
- Windows
- Doors
- Furnace Efficiency Measures
- Building Repair

## Weatherization Served

675

Senior Families

385

Families with Children

**\$538**

Savings in pay per year due to fewer missed work days.

**\$514**

Savings per year in household out of pocket medical expenses

The median energy burden of low-income households is 3.6 times higher than that of non-income households.

First-Year Energy Savings

**\$372**  
per family

**8500**  
Jobs Created  
Nationwide

## Total Completed Projects and Labor/Material Costs

Region	Jobs Completed	Total Labor/Material Costs
Region 1	78	\$216,979.53
Region 2	303	\$718,302.90
Region 3	311	\$774,796.55
Region 4	386	\$648,628.99
Region 5	298	\$925,752.13
Region 6	270	\$574,202.32
Region 7	400	\$1,073,689.70
Region 8	198	\$391,127.75
<b>Total State</b>	<b>2244</b>	<b>\$5,323,479.87</b>

\*Labor costs do not include travel time, training, administrative tasks, etc. Material costs include supplies to complete weatherization projects not including office supplies and items needed to administer the program

## Weatherization Readiness

October 2022 - December 2023

There are many homes throughout the nation that may need weatherization services, but the condition of the home makes delivering the services either unsafe or ineffective. Weatherization Readiness Funds allow the Weatherization program to address deferral conditions and bring dwellings into a Weatherization Ready state so weatherization work can begin on the home. Since October 2022, in North Dakota, there have been:

**38** Approved Readiness Jobs

**28** Completed Readiness Jobs

The majority of approved jobs in North Dakota have been for roof related like re-shingling.
